To effectively cover the topics outlined in the BCA-202 C Programming syllabus, here are curated YouTube videos and online resources for each unit:

Unit I: Arrays

- **YouTube Video:** "C Programming Tutorial for Beginners 6 - Arrays"
    - This tutorial explains the definition, declaration, initialization, and manipulation of one-dimensional and two-dimensional arrays in C.

Unit II: Pointers

- **YouTube Video:** "C Programming Tutorial for Beginners 9 - Pointers"
    - This video provides a comprehensive introduction to pointers, including their definition, declaration, initialization, pointer arithmetic, and dynamic memory allocation.

Unit III: Strings

- **YouTube Video:** "C Programming Tutorial for Beginners 10 - Strings"
    - This tutorial covers the definition, declaration, initialization, and manipulation of strings in C, including standard library functions like strlen(), strcpy(), strcat(), and strcmp().

Unit IV: Structures

- **YouTube Video:** "C Programming Tutorial for Beginners 12 - Structures"
    - This video explains structures in C, including their definition, declaration, initialization, accessing fields, nested structures, and the differences between structures and unions.

Unit V: Introduction to C Preprocessor and Bitwise Operators

- **YouTube Video:** "C Programming Tutorial for Beginners 13 - Preprocessor Directives"
    - This tutorial discusses the C preprocessor, including macro substitution directives, file inclusion directives, and conditional compilation.
- **YouTube Video:** "C Programming Tutorial for Beginners 14 - Bitwise Operators"
    - This video covers bitwise operators, shift operators, masks, and bit fields in C.

Unit VI: File Handling

- **YouTube Video:** "C Programming Tutorial for Beginners 15 - File Handling"
    - This tutorial explains file handling in C, including the definition of files, opening modes, and standard functions like fopen(), fclose(), feof(), fseek(), and rewind().

These resources should comprehensively cover the topics in your BCA-202 syllabus.
