Here are YouTube links and online resources to help cover the topics in BCA-601: Computer Network Security:

UNIT-I: Introduction and Cryptography

1. **YouTube** - *Introduction to Network Security*
   https://www.youtube.com/watch?v=tm34_Y8dWWg
2. **YouTube** - *Cryptography Basics: Plain Text, Cipher Text, Encryption, and Decryption*
   https://www.youtube.com/watch?v=GSzAwR7gjHI
3. **YouTube** - *Public Key Cryptography and Digital Signatures*
   https://www.youtube.com/watch?v=dpABoy5er6g
4. **YouTube** - *Cryptanalysis and Public Key Encryption*
   https://www.youtube.com/watch?v=POpBzFtAnqA
5. **GeeksforGeeks** - *Cryptography: Basic Concepts*
   https://www.geeksforgeeks.org/introduction-to-cryptography/

UNIT-II: Network Security and Authentication Applications

1. **YouTube** - *Kerberos Authentication System*
   https://www.youtube.com/watch?v=-35zWgKmSzE
2. **YouTube** - *X.509 Authentication and Certificate-Based Authentication*
   https://www.youtube.com/watch?v=fyy3i0c1cck
3. **YouTube** - *Pretty Good Privacy (PGP) Overview*
   https://www.youtube.com/watch?v=mbzrsFz3p34
4. **YouTube** - *S/MIME Protocol for Secure Email Communication*
   https://www.youtube.com/watch?v=F6K7d_VfQ0E
5. **GeeksforGeeks** - *Authentication Services in Network Security*
   https://www.geeksforgeeks.org/authentication-services-in-network-security/

UNIT-III: IP Security Architecture

1. **YouTube** - *Overview of IP Security Architecture*
   https://www.youtube.com/watch?v=KLt0OHvEkLs
2. **YouTube** - *IP Authentication Header and Encapsulating Security Payload (ESP)*
   https://www.youtube.com/watch?v=7jLf52n1rqY
3. **YouTube** - *Key Management in IP Security*
   https://www.youtube.com/watch?v=VjqPkdWmb_E
4. **Cisco** - *IPsec Overview*
   https://www.cisco.com/c/en/us/solutions/collateral/enterprise-networks/ipsec-vpn/white-paper-c11-707008.html

UNIT-IV: Web Security

1. **YouTube** - *Secure Socket Layer (SSL) and Transport Layer Security (TLS)*
   https://www.youtube.com/watch?v=Ln2q-d_9Iu8
2. **YouTube** - *Secure Electronic Transactions (SET)*
   https://www.youtube.com/watch?v=X0Uo1u4jXZ8
3. **GeeksforGeeks** - *SSL and TLS Overview*
   https://www.geeksforgeeks.org/ssl-vs-tls-cryptographic-protocols/

UNIT-V: Network Management Security

1. **YouTube** - *Overview of SNMP Architecture and Communication*
   https://www.youtube.com/watch?v=rlLlEvCUHx0
2. **YouTube** - *SNMPv3 Security*
   https://www.youtube.com/watch?v=70Drm0seG8k
3. **YouTube** - *Introduction to SNMP (Simple Network Management Protocol)*
   https://www.youtube.com/watch?v=1oh21z9wU9k
4. **Cisco** - *SNMP Overview*
   https://www.cisco.com/c/en/us/solutions/collateral/enterprise-networks/simplified-network-management/white-paper-c11-740522.html

UNIT-VI: System Security

1. **YouTube** - *Intruders and Intrusion Detection Systems (IDS)*
   https://www.youtube.com/watch?v=U9oyzqjyZQs
2. **YouTube** - *Viruses and Malware Threats in Network Security*
   https://www.youtube.com/watch?v=4p6tGv9riVY
3. **YouTube** - *Firewall Design Principles and Types*
   https://www.youtube.com/watch?v=4gsINtwwu6M
4. **GeeksforGeeks** - *Firewall Security and Design Principles*
   https://www.geeksforgeeks.org/firewall-design-principles/
5. **OWASP** - *OWASP Top 10 Security Risks*
   https://owasp.org/www-project-top-ten/

Additional Resources:

1. **TutorialsPoint** - *Network Security Overview*
   https://www.tutorialspoint.com/computer_network_security/index.htm
2. **Cybrary** - *Free Network Security Courses*
   https://www.cybrary.it/

These resources will guide you through the core concepts and practices of **Network Security**, cryptography, authentication, IP security, web security, system security, and more, to help you fully grasp the subject.
