B. C. A. Examination, Dec. 2016

Java Programming and Dynamic Webpage Design

(BCA-502)

(New Course)

Time : Three Hours] *[Maximum Marks : 75*

Note : Attempt questions from all Sections as per instructions.

https://www.ccsustudy.com

https://www.ccsustudy.com

Section-A

(Very Short Answer Questions)

Answer all the *five* questions. Each question carries 3 marks. Very short answer is required. 3×5=15

1. Write a program in JAVA to convert a string totally into upper case. 3

https://www.ccsustudy.com

https://www.ccsustudy.com

2. What is byte-code in JAVA? Explain. 3

3. Design a webpage in HTML that contains special symbols. 3

4. What do you mean by connection pooling? Explain. 3

5. JAVA is not pure object-oriented programming language? Justify your answer. 3

Section-B

(Short Answer Questions)

Answer any *two* questions out of the following three questions. Each question carries 7½ marks. Short answer is required. 7½×2=15

6. Define JAVA servlets. How database connectivity is done in JAVA servlets? Explain. 7½

7. What do you mean by frame and frameset tag in HTML? Explain it with a suitable program. 7½

8. Write a program to count the number of objects created in a program. 7½

https://www.ccsustudy.com

https://www.ccsustudy.com

https://www.ccsustudy.com

Section-C

(Detailed Answer Questions)

Answer any *three* questions out of the following five questions. Each question carries 15 marks. Answer is required in detail. 15×3=45

9. (a) What is an applet? Explain the life cycle of an applet? 5

(b) Write an applet program in JAVA to create an event listener. 5

(c) Explain the concept of handling image in Java GUI application with example. 5

10. Write short notes on the following :

(a) Exception Handling in JAVA 8

(b) Table Tag in HTML. 7

11. (a) Describe the delegation event model of event handling in JAVA. How is it a better approach than the other approaches? 7

(b) What do you mean by a thread and multithreading? Explain the various methods to create a thread in JAVA. 8

https://www.ccsustudy.com
https://www.ccsustudy.com
https://www.ccsustudy.com

https://www.ccsustudy.com

12. (a) What do you mean by Constructor? Differentiate between default constructor and parameterized constructor with example. 7

(b) What do you mean by datagram socket in JAVA? How to create a TCP and UDP connections using socket programming in JAVA? Explain. 8

13. (a) How many types of forms are available in HTML? Design an order-entry form that contains all the form controls and elements. 8

(b) Define the concept of JAVA server page. How the dynamic content is generated in JSP? Explain. 7

B.C.A. Examination, Dec.- 2017

Java Programming and Dynamic Webpage Design

(BCA-502)

(New Course)

Time : Three Hours] *[Maximum Marks : 75*

Note : Attempt questions from **all** sections as per instructions.

Section-A

(Very Short Answer Questions)

Note : Attempt all **five** questions. Each question carries 3 marks. Very short answer is required. 3×5=15

1. Why java is called machine independent language? 3

P.T.O.

https://www.ccsustudy.com

https://www.ccsustudy.com

https://www.ccsustudy.com

https://www.ccsustudy.com

2. How will you create hyperlinks in web document? Write the code also. 3
3. Define the following with sample code- 3
   (i) Encapsulation
   (ii) Abstraction.
4. Define Servlet life cycle. 3
5. Write down the various components of JSP. 3

Section-B

(Short Answer Questions)

Note : Answer any **two** questions out of the following three questions. Each question carries 7½ marks. Short answer is required. 7½×2=15

6. What are cascading style sheets and how they are coded? Explain them with an example. 7½
7. Define Socket () & Server Socket () class in java networking. Write down their methods with an example. 7½
8. Differentiate between the following:
   (i) Constructor and finalizer 3×2½=7½
   (ii) Method overloading and method overriding
   (iii) Super and final keyword

https://www.ccsustudy.com

https://www.ccsustudy.com

https://www.ccsustudy.com

Section-C

(Long Answer Questions)

Note : Answer any **three** questions out of the following **five** questions. Each question carries 15 marks. Answer is required in detail. 15×3=45

9. (a) Java supports single inheritance. If there is a need to extend more than one class, how can this are achieved? Explain with sample code. 7

   (b) Define multithreading in java. What are the two ways to create a thread in java? Write down the code also. 8

10. (a) What is a string buffer? How does it differ from a string? Give three ways to create a string object. 8

    (b) What is the life cycle of an Applet? Illustrate common methods to create the applet. 7

https://www.ccsustudy.com

https://www.ccsustudy.com

https://www.ccsustudy.com

https://www.ccsustudy.com

11. (a) What is JDBC? Write different types of Java driver available for database connectivity? What are the steps of database connectivity in Java? 8

    (b) How will you define Socket? How many different types of socket you can create in java? Define also the methods & class of these different sockets. 7

12. (a) Define the following tags in HTML 8

    (i) <META> (ii) <form>

    (iii) <FRAMESET>

    Also design a simple form that will accept user entry and display it.

    (b) What is an exception? What are the methods of handling exception in java? 7

13. (a) What is Servlet? Explain the life cycle of Servlet. Write a login page using servlet. 8

    (b) What is JSP? Write the difference between JSP & Servlet. Also some advantages of JSP. 7

JAVA PROGRAMMING AND DYNAMIC WEBPAGE DESIGN

(BCA-502)

Time : Three Hours] *[Maximum Marks : 75*

Note : Attempt questions from **all** sections as per instructions.

Section–A

(Very Short Answer Questions)

Note : Attempt all the **five** questions. Each question carries 3 marks. Very short answer is required not exceeding 75 words. 5×3=15

1. Java is Platform Independent. Explain.

2. What is Inheritance ? Give the type of inheritance.

3. Explain Servlet.

4. Why JDBC is used for database connectivity ?

5. What is Layout Manager ?

https://www.ccsustudy.com

https://www.ccsustudy.com

Section–B

(Short Answer Questions)

Note : Attempt any ***two*** questions out of the following three questions. Short answer is required not exceeding 200 words. 2×7½=15

6. Explain the following :

   (a) Package 4

   (b) Exception handling 3½

7. What is Java Script ? Differentiate between Java and Java Script. Give the Supportive example also.

8. What is Thread ? What are the advantage of multithreading ? Write a program in Java for creating two threads.

Section–C

(Detailed Answer Questions)

Note : Attempt any ***three*** questions out of the following five questions. Answer is required in detail. 15×3=45

9. What do you understand by Layout Manager ? Give all type of layout available in Java with the help of example.

https://www.ccsustudy.com

https://www.ccsustudy.com

https://www.ccsustudy.com

https://www.ccsustudy.com

https://www.ccsustudy.com

10. What is JSP ? Explain the advantage of JSP and main component of JSP also. How JSP is different from Servlet. Give an example also.

11. Explain the following :

(a) Applet viewer

(b) CSS

(c) RMI

(d) Super and final

(e) AWT

12. (a) Explain servlet life cycle. 7

(b) Explain drives used in connectivity in Java. 8

13. Create a file to contain information about student performance on a module. Each student has a name, Roll No., subject marks and result.

or

What is Inheritance in Java ? Explain its types, if we need to extend more than one class, how it works ? Give the example also.

JAVA PROGRAMMING AND DYNAMIC WEBPAGE DESIGN

(B.C.A.-502)

Time : 1½ Hours] *[Maximum Marks : 75*

Note : Attempt questions from **all** sections as per instructions.

Section-A

(Very Short Answer Questions)

Note : Attempt any **two** questions. Each question carries **7.5** marks. Very short answer is required not exceeding **75** words.

2×7.5=15

1. Explain the features of Java.
2. What is type casting? Give an example to explain it.

P.T.O.

https://www.ccsustudy.com

3. Explain destroy() method, a stage in the life cycle of an applet.
4. What do you mean by a package in Java?
5. State the different access specifiers available in Java.

Section-B

(Short Answer Questions)

Note : Attempt any **one** question out of the following **three** questions. Short answer is required not exceeding **200** words. Each question carries **15** marks.

1×15=15

6. Write a code in Java to generate single calculator using classes and accepting the two integers and operator with all methods to input, display, add, subtract, product, and division.

https://www.ccsustudy.com

7. What is Exception? Give different types of exception that could occur during run-time. Why to handle exception?

8. What are the life-cycle methods for a JSP? What are the differences between the JSP custom tags and Java beans?

Section-C

(Detailed Answer Questions)

Note : Attempt any **two** questions out of the following **five** questions. Answer is required in detail. Each question carries **22.5** marks. 2×22.5=45

9. What are Servlets? What are the advantages of Servlets over CGI? Explain working of service ( ) method of a servlet with examples.

10. Write a method in Java that takes two integer arguments and returns power of it. Suppose X and Y passing as an argument then it returns X to power Y offer calculation.

https://www.ccsustudy.com

11. What is thread priority? Write are the default values? Write a program to define two threads. One thread will print 1 to 10 no. whereas other will print 10 to 1 nos.

12. What is JDBC? List out JDBC components and types of drivers. Write difference between Java applet program and Java application program.

13. What is package? What are the benefits of package? Explain Java API packages. List out any five methods of string class by giving an example.

Java Programming and Dynamic Webpage Design

(BCA-502)

Time : Three Hours] *[Maximum Marks : 75*

Note : Attempt questions from **all** sections as per instructions.

Section-A

(Very Short Answer Questions)

Note : Attempt **all** questions. **All** questions carry equal marks. 3×5=15

1. What is difference between a function and a method?

2. Write an applet to draw square inside a rectangle.

P.T.O.

https://www.ccsustudy.com

https://www.ccsustudy.com

https://www.ccsustudy.com

https://www.ccsustudy.com

https://www.ccsustudy.com

3. Explain why Java is considered as the best language for Internet Applications.

4. Discuss various primitive data types supported by Java.

5. What do you mean by class and objects? Explain with suitable example.

Section-B

(Short Answer Questions)

Note : Attempt any **two** questions out of the following three questions. 7½×2=15

6. Define Coofies. Explain the role of HTTP give the supportive example also.

7. What are the package in Java? Illustrate the appropriate example.

8. Explain the following:

   (a) Multi threading 4

   (b) Encapsulation 3½

https://www.ccsustudy.com

https://www.ccsustudy.com

Section-C

(Detailed Answer Questions)

Note : Attempt any **three** questions out of the following five questions. 15×3=45

9. (a) What is an exception? What are the methods of handling exception in Java. 7

   (b) What is difference between Application and Applet? Explain how will you write a simple applet to display Hello word message. 8

10. What do you mean by Cascading Style Sheet (CSS)? What are the advantage of CSS? How many ways are there to specify style information in a document?

11. What is Servlet? Explain life cycle of servlet. Give the supportive example also.

https://www.ccsustudy.com
