Here are YouTube links and online learning resources to cover the topics in BCA-602: Information System Analysis, Design, and Implementation:

UNIT-I: Overview of System Analysis and Design

1. **YouTube** - *Overview of System Analysis and Design*
   https://www.youtube.com/watch?v=_kkhKkaF25g
2. **YouTube** - *Systems Development Life Cycle (SDLC) Explained*
   https://www.youtube.com/watch?v=b9yMMz90scs
3. **YouTube** - *Feasibility Analysis in System Design*
   https://www.youtube.com/watch?v=_yErziq0q7s
4. **GeeksforGeeks** - *Introduction to System Analysis and Design*
   https://www.geeksforgeeks.org/system-analysis-and-design/
5. **TutorialsPoint** - *System Analysis and Design Overview*
   https://www.tutorialspoint.com/system_analysis_and_design/index.htm

UNIT-II: Information Requirement Analysis

1. **YouTube** - *Process Modeling and Data Flow Diagrams (DFD)*
   https://www.youtube.com/watch?v=7In3vES7zMI
2. **YouTube** - *Entity Relationship Diagram (ERD) for Database Design*
   https://www.youtube.com/watch?v=0tJz5r7cqs4
3. **YouTube** - *Logical and Physical Data Flow Diagrams (DFD)*
   https://www.youtube.com/watch?v=mwbW7C1X-7I
4. **TutorialsPoint** - *Data Flow Diagrams (DFD)*
   https://www.tutorialspoint.com/data_flow_diagram/index.htm
5. **GeeksforGeeks** - *Entity Relationship Diagram (ERD) for Beginners*
   https://www.geeksforgeeks.org/entity-relationship-diagram-erd/

UNIT-III: Developing a Proposal & System Design

1. **YouTube** - *Feasibility Study and Cost Estimation in System Design*
   https://www.youtube.com/watch?v=Y2Z6pHyPL18
2. **YouTube** - *System Design: Design of Inputs, Outputs, and Controls*
   https://www.youtube.com/watch?v=q6wJ_r-7u9g
3. **YouTube** - *Prototyping in System Design*
   https://www.youtube.com/watch?v=6V9QOZosDQk
4. **GeeksforGeeks** - *System Design Process*
   https://www.geeksforgeeks.org/system-design-process/
5. **TutorialsPoint** - *Software Design Concepts*
   https://www.tutorialspoint.com/software_design/index.htm

UNIT-IV: Application Development Methodologies and CASE Tools

1. **YouTube** - *Information Engineering and Structured System Analysis*
   https://www.youtube.com/watch?v=0ctVn2wv9W0
2. **YouTube** - *Object-Oriented Methodology for Application Development*
   https://www.youtube.com/watch?v=0xv9fS3aC8M
3. **YouTube** - *CASE Tools for System Design*
   https://www.youtube.com/watch?v=J-cfXz5RL04
4. **GeeksforGeeks** - *Introduction to CASE Tools*
   https://www.geeksforgeeks.org/introduction-to-case-tools/
5. **TutorialsPoint** - *Object-Oriented Methodology for Application Development*
   https://www.tutorialspoint.com/object_oriented_analysis_and_design/index.htm

UNIT-V: Design and Implementation on OO Platform

1. **YouTube** - *Object-Oriented Analysis and Design (OOAD)*
   https://www.youtube.com/watch?v=5ErqFgAdD5o
2. **YouTube** - *Object Modeling and Dynamic Modeling in OOAD*
   https://www.youtube.com/watch?v=QNjznm7qjeA
3. **YouTube** - *Object-Oriented Programming and Design Principles*
   https://www.youtube.com/watch?v=1LXYQJ93-_M
4. **GeeksforGeeks** - *Object-Oriented Design and Programming*
   https://www.geeksforgeeks.org/object-oriented-design-and-programming/
5. **TutorialsPoint** - *Object-Oriented Analysis and Design*
   https://www.tutorialspoint.com/object_oriented_analysis_and_design/index.htm

UNIT-VI: Managerial Issues in Software Projects

1. **YouTube** - *Introduction to Software Markets and Planning*
   https://www.youtube.com/watch?v=mhO3RbESZbA
2. **YouTube** - *Software Project Scheduling and Cost Estimation*
   https://www.youtube.com/watch?v=7mXex2ZjmMo
3. **YouTube** - *ISO Standards and CMM for Software Quality*
   https://www.youtube.com/watch?v=Lw6WmAK95Dk
4. **GeeksforGeeks** - *Software Project Management and Metrics*
   https://www.geeksforgeeks.org/software-project-management-and-metrics/
5. **TutorialsPoint** - *Software Project Management*
   https://www.tutorialspoint.com/software_project_management/index.htm

Additional Resources:

1. **Coursera** - *Software Design and Development* (Free course with certification)
   https://www.coursera.org/courses?query=software%20design%20and%20development
2. **EdX** - *Software Engineering: Software Design and Architecture*
   https://www.edx.org/course/software-engineering-software-design-and-architecture

These resources will provide a strong foundation for understanding **System Analysis and Design**, including SDLC, application development methodologies, object-oriented design, and managerial aspects of software projects.
