Here are the direct links to the resources for each unit of **BCA-301 Object-Oriented Programming Language**:

UNIT-I: Introduction to Object-Oriented Programming

- **YouTube Video:** *Introduction to Object-Oriented Programming*
  Watch here
- **GeeksforGeeks:** *OOPs Concepts in C++*
  Access here
- **TutorialsPoint:** *C++ Programming - Introduction and Basics*
  Access here

UNIT-II: Classes and Objects

- **YouTube Video:** *C++ Classes and Objects*
  Watch here
- **GeeksforGeeks:** *C++ Classes and Objects*
  Access here
- **TutorialsPoint:** *C++ Classes and Objects*
  Access here

UNIT-III: Inheritance and Polymorphism

- **YouTube Video:** *C++ Inheritance and Polymorphism*
  Watch here
- **GeeksforGeeks:** *Inheritance in C++*
  Access here
- **TutorialsPoint:** *Polymorphism in C++*
  Access here

UNIT-IV: Generic Function

- **YouTube Video:** *C++ Templates - Generic Functions*
  Watch here
- **GeeksforGeeks:** *C++ Function Overloading and Templates*
  Access here
- **TutorialsPoint:** *C++ Templates*
  Access here

UNIT-V: Files and Exception Handling

- **YouTube Video:** *C++ File Handling and Exception Handling*
  Watch here
- **GeeksforGeeks:** *File Handling in C++*
  Access here
- **GeeksforGeeks:** *Exception Handling in C++*
  Access here

These links should provide comprehensive coverage of the topics in your **BCA-301 Object-Oriented Programming Language** course.
