Here are YouTube links and online resources that will help you cover the topics in BCA-402 Operating System:

UNIT-I: Introduction to Operating Systems, Memory Management, Virtual Memory

1. **YouTube** - *Introduction to Operating Systems*
   https://www.youtube.com/watch?v=sSno9rF3T1g
2. **YouTube** - *Types of Operating Systems* (Batch, Multi-programmed, Time-sharing, etc.)
   https://www.youtube.com/watch?v=w9J8Z0L8x3E
3. **GeeksforGeeks** - *Memory Management in Operating System*
   https://www.geeksforgeeks.org/memory-management-in-operating-system/
4. **YouTube** - *Virtual Memory and Paging*
   https://www.youtube.com/watch?v=2sNk7W4kGRM
5. **YouTube** - *Page Replacement Algorithms and Thrashing*
   https://www.youtube.com/watch?v=5P7gFivNQhM

UNIT-II: Processes, CPU Scheduling, Synchronization

1. **YouTube** - *Processes and Process Scheduling*
   https://www.youtube.com/watch?v=Z-QDdSZ8t8Q
2. **YouTube** - *CPU Scheduling Algorithms*
   https://www.youtube.com/watch?v=1s8-jM64QHk
3. **YouTube** - *Process Synchronization and Semaphores*
   https://www.youtube.com/watch?v=OpfYJz0Yrno
4. **GeeksforGeeks** - *Process Synchronization*
   https://www.geeksforgeeks.org/process-synchronization-in-operating-system/
5. **YouTube** - *Classical Problems of Synchronization (Producer-Consumer, Reader-Writer)*
   https://www.youtube.com/watch?v=90p5XMWe8wM

UNIT-III: Deadlocks

1. **YouTube** - *Deadlock in Operating Systems*
   https://www.youtube.com/watch?v=5B0nAlXHF5M
2. **GeeksforGeeks** - *Deadlock Detection, Prevention, and Recovery*
   https://www.geeksforgeeks.org/deadlock-detection-prevention-and-recovery/
3. **YouTube** - *Deadlock Prevention and Avoidance Techniques*
   https://www.youtube.com/watch?v=IZVxAtR21xg

UNIT-IV: Device Management, Disk Scheduling

1. **YouTube** - *Device Management in Operating Systems*
   https://www.youtube.com/watch?v=q5ZGzjz6I4w
2. **YouTube** - *Disk Scheduling Algorithms (FCFS, SSTF, SCAN)*
   https://www.youtube.com/watch?v=I_f5YVJmA7o
3. **GeeksforGeeks** - *Disk Scheduling Algorithms*
   https://www.geeksforgeeks.org/disk-scheduling-in-operating-system/
4. **YouTube** - *Buffering, Swap-Space Management in Operating Systems*
   https://www.youtube.com/watch?v=aBpk3w5Qip0

UNIT-V: Information Management and File Systems

1. **YouTube** - *File System in Operating Systems*
   https://www.youtube.com/watch?v=zjEDq0bzR1o
2. **GeeksforGeeks** - *File System Interface, Access Methods, and File Allocation*
   https://www.geeksforgeeks.org/file-system-in-operating-system/
3. **YouTube** - *File System Implementation and File Allocation Methods*
   https://www.youtube.com/watch?v=QRLy4g1J-7s
4. **YouTube** - *File System Consistency and Protection*
   https://www.youtube.com/watch?v=gsXNx4udS00

These resources cover the major concepts and techniques involved in operating systems, including memory management, CPU scheduling, deadlock handling, device management, and file systems.
